README.md

Summary

The tools are designed to easily interact with the [gnublin modules](#). A tool exist for each module.

Installation

The gnublin modules must be compiled and installed. See the [README](#) file for further instructions about installing the modules. When the modules are installed, type the following command for installing the tools.

```
git clone https://github.com/cburki/gnublin-tools.git
cd gnublin-tools
make
make publish
```
